ACTIVITY 2 :

THE WORLD SPEAKS TO YOU

AIM : To Improve Reading Comprehension

Individual / Group Activity

Age Groups : 6-8 Years Old

Children I'm five billions years old.What things I have seen and I have had;but none of them have grieved me as much as the last century.

I will tell you my life which began in the begining and existed till today but It is like I didn't exist.In the past,in days of yore the deep blue sky's,chirpy singing birds' ,deep green trees being on me,humans and all livings were living healthily and happily.

But they have covered now my deep green areas with buildings,asphalt and concrete.Factories that humankind established on me have polluted my deep blue water pouring harmful waste into the sea without refining it.With smoke reeking from chimneys ,gase discharging from cars' exhaust,polluting my air they made me uninhabitable.They polluted my soil by throwing their garbage into environment instead of garbage bins.

If huminkind continue polluting me unconsciously,I will extinct in the near future.

What would you like to say to the world that speak to in the text you read?
